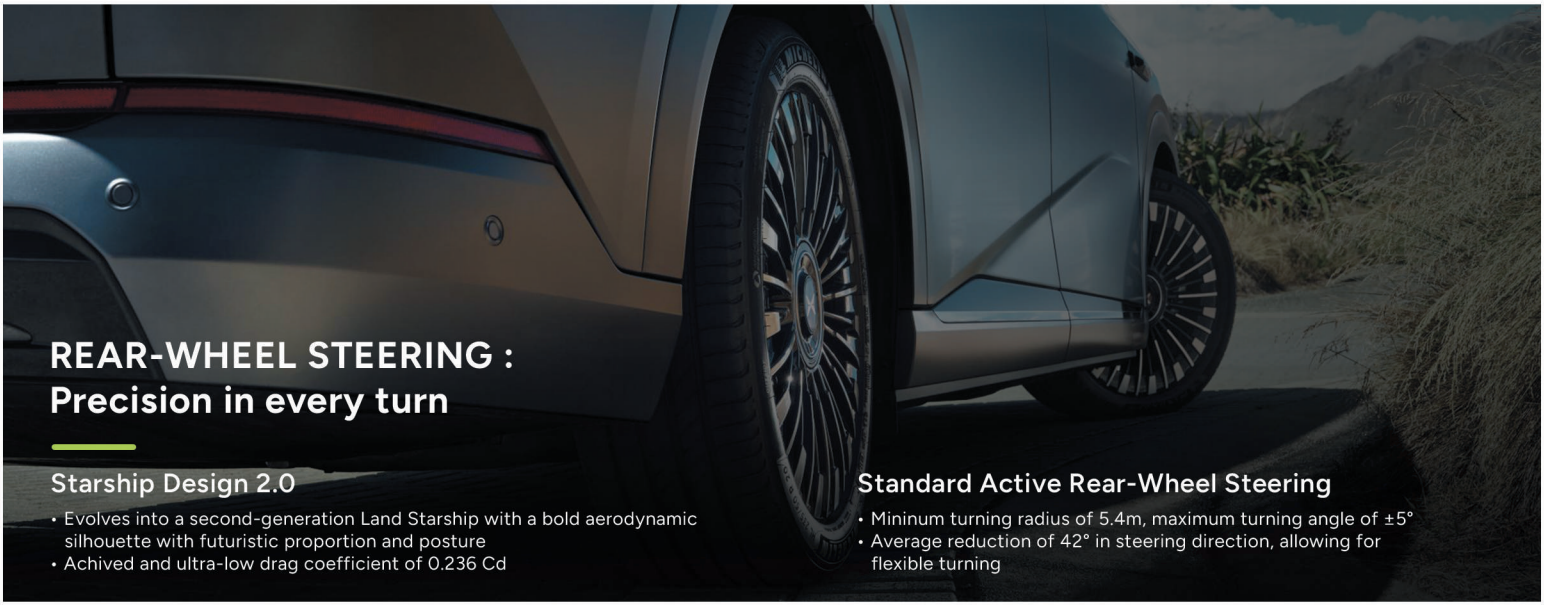
XPENG New X9

THE NEXT AI-VOLUTION

Ultra Intelligent 7 seater

Powered by Turing chip



REAR-WHEEL STEERING : Precision in every turn

Starship Design 2.0

- Evolves into a second-generation Land Starship with a bold aerodynamic silhouette with futuristic proportion and posture
- Achived and ultra-low drag coefficient of 0.236 Cd

Standard Active Rear-Wheel Steering

- Mininum turning radius of 5.4m, maximum turning angle of ±5°
- Average reduction of 42° in steering direction, allowing for flexible turning

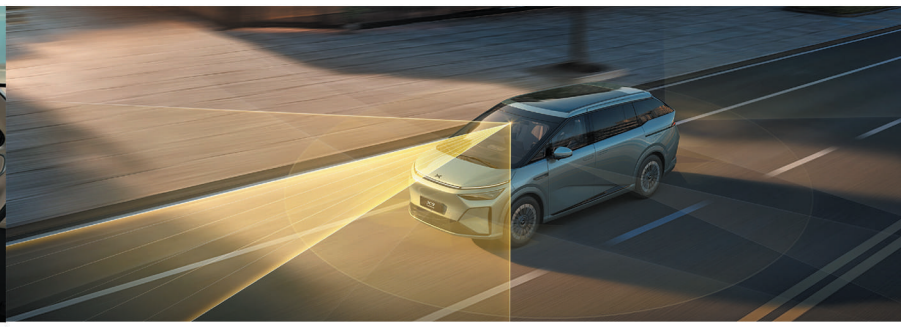
SPACE LIKE MAGIC : Expansive Space, Elevated Comfort

Superior 7.7m² interior space, largest in its class

- One-click easy access to 3rd row
- 1100mm extra-long electric slide rail
- 180mm center channel for easy cabin accessibility

Bigger than Bigger Storage Space

- 7 passanger 7 suitcase in one car
- Full flat boot and outstanding in-cabin height for everything
- Expandable boot space ranging from 721L to 2554L



XOS Tianji

- Powered by the industry-leading automotive cockpit chip of Qualcomm Snapdragon 8295
- XCombo: Ever evolving Customized Smart Cabin, Split-screen
- Multi-application Interaction Carplay & Android Auto
- "Hey XPENG" all-scenario six-zone voice control
- **21 inch W-HUD projects driving speed and navigation directly into the driver's line of sight (New)**

XPILOT Assist

- **27 Sensors + XP5 Supercomputing Processor (New)**
- Surrounding Reality, comprehensive real-time road awareness
- 360° Camera Transparent chassis, zero blind spots
- ACC + LCC, SAS + ATC Integrated intelligent driving assistance

Intelligent Parking Assist

- APA+RPA easily controlled right from your mobile phone
- Reverse Drive Assist automatically retraces the original driving path

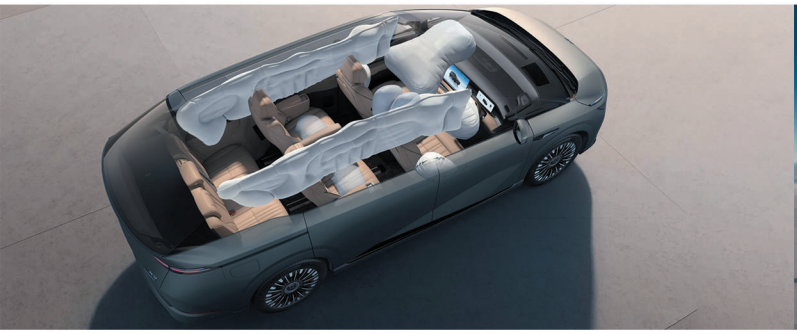
AI-ENHANCED COMFORT FOR EVERY PASSENGER

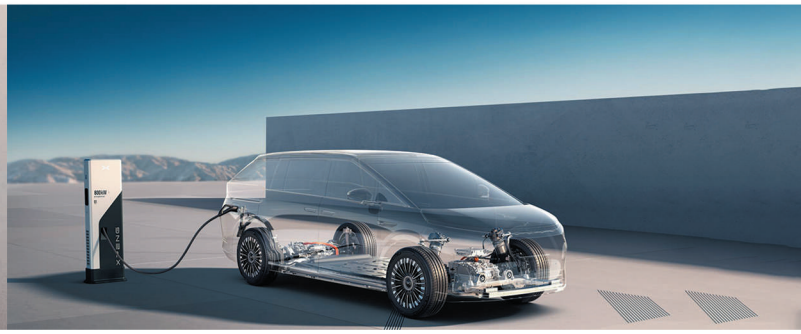
A Lounge-like Cabin Experience

- **Electric soft-close door (New)**
- Segment-only dual chamber air suspension
- Zero-gravity space seat with 10-point massage
- Cloud-Sense 3.0 crafted from Nappa leather with baby-safe, chrome-free materials
- Active real-time Road Noise Cancellation

Immersive Sensory Experience

- **27 speakers XOPERA audio system included driver seat speakers (New)**
- 21.4" Home entertainment ecosystem, the largest in it's class
- 17,3" Control center Headunit with XCombo split-screen multitasking & XDock shortcut bar customization
- Integrated Electric Freezing & Heating Refrigerator with powered drawer
- Multi-color rhythmic surrounding LED atmosphere light





GLOBAL TOP SAFETY STANDARD : EN-NCAP 5 STAR

Designed to Global Safety Standards

Passed the stringent rear collision safety test standards of China, the US, and Europe.

Intelligent Safety

- Front and rear integrated aluminum die-casting with a massive 46,000 N·m/deg vehicle torsional stiffness
- 2000Mpa Cage-style Body Structure with 19 Circular Safety Designs
- **9 airbags (New)**
- 16 active safety features
- Flat tire stability control, stable driving after a tire blowout

5C BATTERY : ULTRA FAST CHARGING

800V High-voltage Silicon Carbidge Platform

- Ultra-long driving range **up to 715 km*** (NEDC) | Maximum power consumption **per 100km: 10.2 kWh (New)**
- Maximum DC fast charging peak power **up to 542 kW***
- **Next Gen 5C Battery, 12 minutes charge** from **SOC 10%-80% (New)**

1. The vehicle configuration information is only applicable to the corresponding models produced within a certain production month, and the vehicle configuration information produced during different production months might be different. The battery range and charging time are for reference only, and vary depending on the actual circumstances. The configuration table is only for reference, and the actual situation should be based on the actual vehicles sold by the sales store. XPENG has the right to explain and reserve the right to change technical parameters, configuration and other product information within the scope enforced by laws and regulations.
2. Unless otherwise noted, the performance data in the table are tested under standard configuration.
3. XPILOT intelligent driving system is a driving assistance function and cannot cope with all traffic, weather and road conditions. The driver must always pay attention to observe the current traffic situation. If the automatic assist driving system fails to provide proper steering assistance or maintain proper distance and speed, the driver must actively intervene. Please read all information about XPILOT in the driver manual to better understand the limitations of this system. The driver should be aware of these restrictions before using XPILOT. Please be cautious during complex and changeable traffic conditions, icy and snowy roads, wet and slippery weather, stagnant or muddy roads, poor visibility, rugged mountain roads, or highway exits.
4. The acceleration data is obtained through tests and the actual 0-100 acceleration capability may vary due to different driving skills, remaining capacities, battery temperatures, road conditions, etc.
5. The actual range may differ from the calculated WLTP range, depending on the driver's driving style, speed, number of occupants, vehicle load, outdoor temperature, air conditioner use, terrain, vehicle condition, etc.
6. Actual DC charging time may vary depending on a variety of factors, including vehicle condition, ambient temperature, the initial state of charge, battery condition, and charger type.
